

SMTSYSTEM 4500

Integrated Business Management & Accounting Software

A Complete Solution for Modern Businesses

1. Introduction

SMTSYSTEM 4500 is an integrated business management and accounting software solution designed to simplify daily operations, improve productivity, and provide better control over business activities.

The system is suitable for businesses operating in real estate, sales, trading, restaurants, and general accounting. It provides a centralized platform for managing business information, transactions, customers, inventory, and financial records.

2. Main Business Modules

Real Estate Management

- Property and unit management
- Tenant, owner, and customer records
- Rental and sales contracts
- Payment tracking and outstanding balances
- Property-related reports

Sales & Trading Management

- Product and inventory management
- Sales and purchase transactions
- Customer and supplier management
- Invoice generation
- Payment tracking and sales reports

Restaurant Management

- Menu and item management
- Order and sales processing
- Inventory and stock control
- Daily sales summaries
- Revenue and expense tracking

Accounting & Finance

- Income and expense management
- Cash and bank accounts
- Accounts receivable and payable
- Financial transaction records
- Financial summaries and reports

3. Key Features

- Simple and user-friendly interface
- Organized business records
- Customer and supplier management
- Sales, purchases, and invoicing
- Inventory control
- Financial reporting
- User access and permission management
- Data backup and recovery capabilities
- Support for business growth and expansion

Feature availability depends on the modules and configuration implemented in the system.

4. System Requirements

Operating System

- Windows 7 Service Pack 1
- Windows 8 / 8.1
- Windows 10
- Windows 11

Processor

- Intel Core i3 or equivalent
- 2.0 GHz or higher recommended

Memory (RAM)

- 4 GB minimum
- 8 GB recommended

Storage

- 2 GB of available disk space

Display

- 1280 × 720 resolution or higher

Internet Connection

- Required for online services, if applicable.

These are proposed baseline requirements. Actual compatibility depends on the software version, database, and installed components. Windows 7 and Windows 8 are no longer supported by Microsoft.

5. Benefits

SMTSYSTEM 4500 aims to help businesses organize their operations, reduce manual work, improve transaction tracking, and access important business information more efficiently.

By bringing key operational and accounting functions together, the system can help management monitor performance and make informed business decisions.

6. Conclusion

SMTSYSTEM 4500 offers a unified approach to business management, combining essential operational and accounting functions in one software solution.

SMTSYSTEM 4500 — Manage Your Business. Control Your Operations. Grow with Confidence.
